Sapa Kiran Kumar Reddy

Software Engineer | Backend & Full-Stack | Python, FastAPI, React

+91 93901 68818 | kkreddy650@gmail.com | Portfolio | GitHub | LinkedIn | Hyderabad

Summary

Software Engineer from **NIT Warangal** with **2 years** of experience building production backends and internal tools for a media company's news app and its subscription **learning app**. Shipped subscription payments (Razorpay, PhonePe, App Store/Play Store), search and recommendations, and LLM-powered content tooling across **13 production services**.

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL, Java, C++

Backend: FastAPI, Node.js, REST APIs, Pydantic, webhooks, event-driven consumers, background workers

Frontend & Mobile: React.js, Redux Toolkit, React Query, Ant Design, Tailwind CSS, Remix, React Native

Data & Messaging: MongoDB, PostgreSQL, MySQL, YugabyteDB, Redis, Apache Kafka, Elasticsearch, Kibana

Cloud & DevOps: AWS (EC2, Lambda, S3, SQS, ECR, EventBridge, CloudWatch, IAM), Docker, Kubernetes, Linux, Git, CI/CD

AI & Integrations: OpenAI & Claude APIs, prompt engineering, Razorpay, PhonePe Autopay, Apple/Google IAP, Firebase (FCM), FastPix

Experience

Aadhan Media Pvt Ltd — May 2025 – Present

Software Engineer (Intern → Full Time) — *Hyderabad*

- One of the main backend engineers on the company's **multilingual video-learning app**: wrote **365+ commits** to its FastAPI service covering auth (OTP over SMS/WhatsApp), courses, playlists, watch progress, ratings and the paywall.
- Built **subscription billing** across **Razorpay**, **PhonePe Autopay** and **Apple/Google in-app purchases**: webhooks and **Kafka** consumers for renewals, failed debits with retries, mandate upgrades and cancellations, free-trial eligibility, and a billing-period backfill script.
- Built v2 **search** on **Elasticsearch** with custom ranking, suggestions and trending queries, plus a **Redis** caching layer in front of the busiest home-feed and search endpoints.
- Designed the **home-feed engine**: a course recommender, discovery tiers and system playlists (Most Watched/Liked/Shared, Latest, Continue Watching, My List) built with MongoDB aggregations.
- Built most of the learning app's **content-production pipeline** in the CMS (FastAPI + React, **1,200+ commits**): role-based dashboards from script writer to publisher, studio slot booking with crew-conflict checks, asset review, and **FastPix** video upload, trailer cuts and media cleanup.
- Added **LLM features** to editorial workflows: a **Claude Messages API** router, plus AI-generated YouTube scripts, shoot guidelines and script validation prompts that cut the manual writing editors had to do.
- Built CMS modules for the **Aadhan news app**: user and inactive-user push notifications, polls, influencer and campaign management with Excel/PDF reports, social-media metrics, organisations, and Google Alerts for breaking news.

Dattam Labs — Aug 2024 – Jan 2025

Software Developer Intern | *Certificate* — *Hyderabad*

- Built a cross-platform **React Native** app for iOS and Android with React Native Paper and Tamagui.
- Set up centralised logging on **AWS**: CloudFront and ALB logs flow through S3 and SQS into an **ELK** stack on EC2, with index lifecycle policies to keep storage costs down.

Projects

AI Astrology Platform with Chatbot | *Remix (TypeScript), FastAPI, PostgreSQL, OpenAI*

- Full-stack app that generates a personalised Kundli from birth details and answers follow-up questions with an LLM chatbot grounded in the user's chart.

Automated ECR Lifecycle Management | *AWS Lambda, EventBridge, ECR, IAM, Docker*

- Event-driven automation: EventBridge detects new repositories and image pushes and triggers a Lambda that applies lifecycle policies, so old images are cleaned up without manual work.

Education

National Institute of Technology (NIT), Warangal — 2020 – 2024

Bachelor of Technology, Computer Science and Engineering — *Warangal, Telangana*

Achievements & Leadership

- **JEE Main 2020: All India Rank 1724** of ∼1M candidates | **Specialist**, Coding Ninjas (rating 12,000+).
- **Additional Secretary**, NITW Sports Club; volunteer TA for a Full-Stack & Data Science course for juniors.
